Dear Colleague:

A student of yours has registered for our camp program for the coming summer.

An important component of our program is academic tutoring, which takes place for one hour each day, from Monday to Friday. Campers receive individual and small group instruction in reading, written and oral language, math, or in any other area that parents or teachers feel would be beneficial.

Since you are most familiar with this student's academic and social needs, your assistance and co-operation in completing a student information form would be most appreciated. It is important to have current and comprehensive information.

Please note that this youngster's registration has been finalized, therefore the information you provide cannot jeopardize acceptance into our program. Also please note that due to our limited internet access, **we cannot accommodate online courses, or provide online access as part of our academic program.**

If you could take a few minutes, the form can be completed directly through our website here: <https://www.campkodiak.com/registered-campers/#school-form>

On the site we would appreciate if you could complete any sections that apply to your experience with this student. In particular, the last set of questions refers to social skills, and any insight you could offer here would be very welcome.

If you have any questions, or would like further information, please do not hesitate to contact us.

Thank you for your co-operation, and for providing us with this valuable information.

Sincerely,

Shari Stoch
